SUMMARY

Experienced Software Engineer specializing in **backend development** with expertise in **Java, Spring Boot**, and experience in Python and C#. Skilled in designing and maintaining **microservices architectures**, optimizing performance with **caching mechanisms (Redis, Caffeine Cache)**, and building **event-driven systems with Kafka**.
Proficient in **database management** (PostgreSQL, MySQL, MongoDB, Microsoft SQL Server, Cassandra) and **RESTful API development**. Strong **DevOps background** with hands-on experience in **Kubernetes, Docker, ArgoCD**, CI/CD pipelines, and monitoring tools like **Prometheus, Grafana, and Logback**.
Experienced in system integrations, debugging, and deployments, delivering **high-performance, scalable backend services**. Thrive in **Agile/Scrum environments**, collaborating with cross-functional teams to solve complex problems. Passionate about **continuous learning** and delivering impactful solutions.

PROFESSIONAL EXPERIENCE

10/2023 – present

Comodif, *Software Engineer*
- **Developed and maintained microservices** using Java, Spring Boot, PostgreSQL, and Cassandra.
- **Managed CI/CD pipelines** with GitHub Actions, triggering Helm-based updates and deploying with ArgoCD.
- **Monitored services** using Lens (Kubernetes UI) and analyzed logs for issue resolution.
- **Set up local test environments** with Docker, running PostgreSQL, Kafka, Redis, and Prometheus.
- **Led backend integrations** and feature development for Mobiqu, contributing to an international PoC event.
- **Contributed to Agile/Scrum workflows**, handling bug fixes, sprint planning, and cross-team collaboration.

01/2021 – 05/2021
Samsun, Turkey

Otoparcasan, *Python Developer*
I made the integration system of the products and orders on our e-commerce site for sales channels such as Gittigidiyor,N11,
Hepsiburada. In general, I am responsible for integrations with such stores.

09/2018 – 06/2019
Samsun, Turkey

Adalet Bakanlığı Samsun Bölge Adliye Mahkemesi, *Intern*
It is an internship that I have done within the scope of compulsory internship in high school. During this period, I did my internship in the IT department.

PROJECTS

Cargo Company Automation ⬀
In this project, I based on jobs such as Cargo Shipment Tracking, Customer Information Management Pricing and Payment Transactions.

Rent A Car ⬀
The car rental system I built to improve myself

Human Resource Management System ⬀
The Human Resources Management System Project enables companies to manage their human resources processes efficiently by digitalizing them. It includes basic features such as personnel information management, recruitment tracking, performance evaluation and reporting.

Fraud Detection with Naive Bayes Classifier ⬀
A web application that uses a naive bayes classifier to determine whether the credit card information entered is fake or not.

Html Portfolio ⬀
My personal html portfolio

EDUCATION

09/2019 – 07/2023
Trabzon, Turkey

Karadeniz Teknik Üniversitesi, *Lisans*
İstatistik Ve Bilgisayar Bilimleri

09/2014 – 07/2018
Samsun

İstiklal Mesleki Ve Teknik Anadolu Lisesi
Veri Tabanı Alanı

CERTIFICATES
