WORK EXPERIENCE

Comodif

Oct 2023 – Feb 2026

Software Engineer

- **Reduced critical API p95 latency by 50%+** by implementing asynchronous parallel data loading, tiered caching strategies (Redis/Caffeine), and targeted PostgreSQL query optimization
- **Architected real-time telemetry pipelines** using **Kafka** (consumers/producers) to process data for 60K+ connected devices, implementing custom data handlers for seamless **Cassandra** storage.
- **Established a comprehensive observability stack** with **Prometheus and Grafana**, designing custom dashboards and Slack alerting systems to monitor Kafka lag and service health.
- **Orchestrated microservices deployment** using **Docker, Kubernetes, and Helm**, leveraging **ArgoCD** for GitOps-based continuous delivery and optimizing **GitHub Actions** CI/CD pipelines.
- **Managed a dual-database architecture**, utilizing **Cassandra** for high-volume telemetry ingestion and **PostgreSQL** for transactional data, ensuring data integrity with **Liquibase** schema versioning.
- **Developed a Slack-integrated support service** for mobile applications, automating real-time issue escalation and reducing customer response overhead.

Otoparcasan

Jan 2021 – May 2021

Python Developer

- **Automated XML-based product and order data integrations** for an e-commerce platform, significantly reducing manual data transfer efforts.
- **Engineered Python scripts** for automated inventory and sales reporting, replacing legacy manual Excel workflows and improving data accuracy.

SKILLS

Languages & Frameworks: Java, Spring Boot, Spring Cloud, Python

Databases: PostgreSQL, Apache Cassandra, Redis, Microsoft SQL Server

Messaging & APIs: Apache Kafka, Protocol Buffers, gRPC, REST APIs

DevOps & Cloud: Docker, Kubernetes, Helm, ArgoCD, GitHub Actions, CI/CD

Observability: Prometheus, Grafana, Loki

Other: Microservices, Event-Driven Architecture, Async & Concurrent Programming, Query Optimization

EDUCATION

Karadeniz Technical University

Jul 2023

B.Sc. Statistics and Computer Science

CERTIFICATES

IBM Introduction to DevOps

IBM Introduction to Agile Development and Scrum

Introduction to Containers w/ Docker, Kubernetes & OpenShift
